

Mission Statement

Johnson City ISD utilizes multiple resources to educate all students to become productive citizens who are committed, life-long learners in the global society.

Core Beliefs

We will:

- Implement rigorous curricular, extra-curricular, and character programs that are aligned, continuously revised, produce successful results on all assessments and prepare ALL students for college and/or career.
- Use technology to impact teaching and learning by continually evaluating and refining our resources and providing ongoing professional development.
- Build strong relationships with the students, staff, parents and community by communicating effectively with all stakeholders.
- Attract and retain highly qualified personnel by offering competitive salaries, and relevant professional development.
- Promote safety and provide quality facilities through operational procedures to ensure a safe, orderly and productive environment for students to learn and build capacity for success in all program areas.
